# Iconic Damsko

## BORN FROM ADVENTURE

When LEKKER's founder Meindert Wolfraad travelled the world, he discovered that the Amsterdam way of living appealed to people everywhere. Moving around on your own terms, taking control - whether it's on the road, the canals or open sea. The freedom to move your own way.

After years of carefully building boats, we've become experts in capturing the essence of sociable and comfortable boating experiences with the added power of a speedboat. By only using high quality aluminium, our boats are extremely flexible in design and we can meet even the most unique desires.

Today, more than 180 indestructible and convenient LEKKER Boats roam the waters from Australia, France to Miami beach. LEKKER enables people worldwide to create meaningful and lasting memories with the people closest to them.

## Iconic Eye Catcher

+ All you need  
The console offers enough space for everything you need when going out on the water. Stock the fridge with 110 litres of your favourite drinks and pre-cool them before with your phone. Which of course is fully charged because of the embedded USB ports. Cheers!

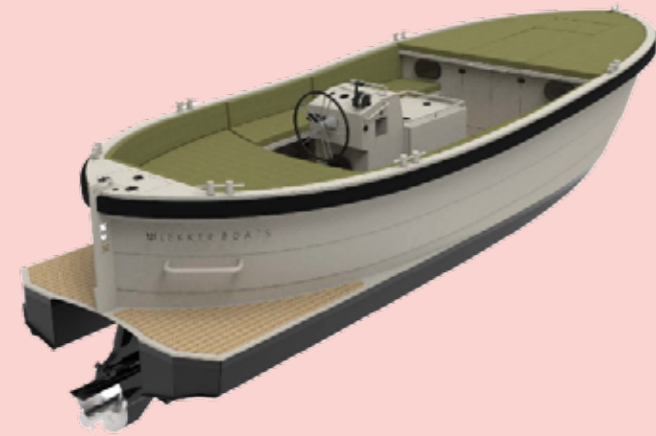

+ Fly over water  
The Damsko 750 is a wolf in sheep's clothing. This comfortable and classic Amsterdam' sloep lets you fly over the water with unprecedented speed. The impressive engine comes in diesel and petrol.

+ Why go home  
Drop your anchor anywhere and listen to the soothing sound of lapping waves at night. No need to go home when you are done with a nice campfire on shore: just get cosy in the sleep cabin for two.

+ Make it yours  
Whatever you want, we can build it. All LEKKER Boats have an aluminium body, which makes them extremely flexible to your wishes. From the exterior colour to the gauges in the cockpit: make it yours.

With the legendary Damsko 750 you're sure to make heads turn. This iconic eye catcher has the spirit of a fighter and even a cabin for two. So there's no need to go home after the sun sets. Experience ultimate freedom.

 Volvo 320hp Diesel D4 DPI

# 1000.

Break routine with the Damsko 1000. Host a party up to 50 friends or enjoy quality time with your family. Or just do both at the same time, it's up to you.

## Social. Speed. Convenience

+ Handcrafted  
Our LEKKER Boats are handcrafted in the Netherlands by a dedicated team of skilled builders. They carefully weld, paint and pay attention to every detail of all of our LEKKER Boats.

+ Latest hydronamics  
By combining light-weight aluminium with the newest inboard engines and a sophisticated underwater hull (designed by Oossanen), we've been able to increase speed and minimise fuel consumption at the same time.

+ Rock steady  
While the Damsko 1000 may look like a classic sloop for the canals of Amsterdam, it's actually perfect for out on the open sea. So you can enjoy some island hopping - even during the most extreme conditions.

+ Easy to use  
The design allows for a fantastic experience, as the boat is incredibly manoeuvrable. Even at top speed, the boat's turning circle is its own length and you can make the sharpest turns.

# Design your own

Design your LEKKER Damsko anyway you like with durable aluminium bodies. And with minimal maintenance and reliable trips, you can focus on the important stuff.

Cabin + toilet

Console + GPS

Teak floor

Tailor-made for you. We just can't say no to good ideas. Time to really make it your own.
